1/THREAD: The Twitter Files - Twitter and the FBI "Belly Button"

1/ Yes, Twitter was engaging with the political leaders and agencies of Ukraine, Russia, and the United States in the run-up to the 2016 election.

Yesterday, I put up a thread on how Twitter's Trust and Safety team — a team tasked with moderating tweets on behalf of the Trust Department — ended up being called on to support Twitter's Government Affairs team in its interactions with the FBI.

2/ Yesterday, I also noted that Twitter's Trust and Safety team was tasked with providing "Trust and Safety" support to Twitter's Government Affairs team in its interactions with the Ukrainian Government, Russian Government, and Democratic National Committee.

3/ Both the Trust and Safety team and the Government Affairs team reported to Vijaya Gadde, who was the Legal, Policy, and Trust Department head. Gadde was also the Twitter lawyer who was handling the case of the Hunter laptop story.
