

OUR MISSION

To defend the rights and freedoms of all people, support Christian values & beliefs, promote free speech, free thought, the free flow of information without restriction and give people the freedom to speak and share the truth based on the facts.

We are pioneering a new and authentic way of free speech without restriction and without censorship through deep grounded faith, divine innovation, and divine guidance from God (Elohim). He is leading us and guiding us and giving us the resources and ideas to chart new paths of communication that will change how people communicate through a period of time when free speech is being regarded by those who are the enemies of America as a privilege and not a right.

We are a remnant of set-apart patriots who are working to restore and protect our God given right to speak freely without restriction.

Ever since we launched our platform on November 20th, 2021, we have not had a single issue with anyone trying to cause problems, post material that is inappropriate and there has not even been any complaining, gossip, or any type of negativity like you find on Facebook and Twitter.

Freedom of speech knows no political party. Freedom of speech is not affiliated with a particular political party.

Freedom of speech rises above the cause and effect of the political divide. Freedom of speech is our God given right, our right to speak freely comes from God, and freedom of speech is upheld in this nation by the United States Constitution according to our First Amendment right.

The United States Constitution has no association with a political party, its policies, its fundamental set of standards, or its legal ramifications, and freedom of speech is exactly the same.

**FREE SPEECH IS A BEAUTIFUL

In our country today there is a lot of silencing, censoring, and restriction of free speech both in public, in print, in the news and online by one political party over another. And there is a lot of silencing, censoring, blocking and banning of any person that speaks against a particular agenda on social media.

OUR GOD-GIVEN RIGHTS

According to our first amendment right as Americans, every person in this nation has the right to speak freely without restriction, regardless if people like or agree with what we have to say. And nobody has the right to silence us or restrict what we say just because they don't like it or agree with it.

Starting in the year 2020, the pendulum of tyranny, dictatorship, control and censorship has swung dangerously far to the left. Silicon Valley, the mainstream media, Big Tech and the evil and demonic far left have begun to forcibly silence voices that do not align with their evil, tyrannical, and woke ideology. Big Tech platforms demonetize, throttle, restrict, censor and even cancel those who stray from their mainstream narrative to stand for what is right and to speak the TRUTH.

We stood up and we took action on November 20th, 2021 against the tyranny, the dictatorship, and the control of mainstream media, Big Tech and the evil and demonic far left. We created an alternative free speech platform that is 100% owned and operated by us and hosted on servers that we own and control so that we can never be shut down by those who are trying to take away our God-given right to speak freely.

**Freedom of speech knows
no political party.**
