

March 21, 2025

Dear Josh,

My name is Trevor Winchell, and I reside in Auburn, Michigan. I'm reaching out in response to a statement you made regarding the recent swatting incident involving Infowars reporter Owen Shroyer. I heard on Owen's show today that you contacted him and mentioned you are working on introducing legislation here in Michigan to prevent these dangerous and malicious swatting attacks.

I want to personally thank you for taking a stand on this serious issue and for showing leadership in protecting innocent Americans from such criminal tactics. I am the founder of AmericanPatriotSocial.com, a free speech platform we launched in 2021 to provide a secure space for truth-seekers, independent voices, and those who value the First Amendment.

We are deeply committed to preserving and protecting free expression, and as such, we frequently post news and truth that challenge mainstream narratives. Because of this, I recognize that I—like Owen and many others—could become a potential target for politically or ideologically motivated swatting attacks.

I truly appreciate your attention to this matter and would welcome any opportunity to support your efforts or share more about the experiences and concerns of individuals like myself who are committed to truth and freedom in today's increasingly hostile climate.

Sincerely,

Trevor Winchell
